

Shake Bag Dust Collector

Product Descriptions:

Shake bag dust collectors have very compact construction and reliable working performance. The total dust collect systems are designed in one machine. What users have to do is only to connect the inlet duct and switch on the fan.

Features:

- Suitable for intermittent operation
- Bags are cleaned by shake motors, compressed air is not required
- Enclosed centrifugal fan and motor in the top working quietly and efficiently
- All the system operations are automatic
- Quick release bag pack mechanism
- Most components Pre-installed in factory to minimize installation on site

Application:

- Drilling, Mixing, Grinding, Abrasive Blast, Transfer Points,
- Cutting, Food Packing, Polishing, Shot Blast, Weighing
